Education

Pt. Sukhraj Raghunathi Institute of Education & Technology

Bachelor of Computer Applications (BCA)

Sep. 2024 – Present

Pratapgarh, Uttar Pradesh

Technical Skills

Programming Languages: C++, JavaScript, Python (Basic), SQL, HTML, CSS

Frameworks & Libraries: React.js, Node.js, Express.js, CSS, Bootstrap

Databases: PostgreSQL

Developer Tools: Git, GitHub, VS Code, Postman, Docker, Linux, Kali Linux, Google Cloud

Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, REST APIs

Experience

Open Source Contributor

Dec. 2025 – Present

Open Food Facts, INCF & Kiwix

Remote

- Contributed frontend and backend features across multiple international open-source projects using C++, JavaScript, Python, Node.js, HTML/CSS, and REST APIs.
- Developed bug fixes, implemented new features, improved documentation, and enhanced user interfaces through GitHub Pull Requests.
- Collaborated with global maintainers by participating in issue discussions, code reviews, testing, and modern Git/GitHub development workflows.

Tenacious Hub Pvt. Ltd.

Oct. 2025 – Nov. 2025

AI & Marketing Intern

Remote

- Learned Artificial Intelligence fundamentals, prompt engineering, and practical AI applications through instructor-led sessions and guided activities.
- Explored AI-powered business solutions, digital marketing strategies, and content planning for real-world use cases.
- Studied the integration of AI tools into modern software and marketing workflows to improve productivity and decision-making.

Projects

Zero Waste Food | *React.js, Node.js, JavaScript, PostgreSQL* | 🐙 [GitHub](#)

June 2026

- Developed a full-stack food donation platform connecting Restaurants, Donors, NGOs, and Admins to reduce food waste and improve food distribution.
- Implemented secure role-based authentication, donation management, food claiming, image uploads, expiry tracking, and real-time availability updates.
- Designed responsive dashboards using React.js and integrated REST APIs with PostgreSQL to manage the complete donation workflow.
- Built an intuitive user interface focused on accessibility, responsiveness, and efficient food distribution across multiple user roles.

AI Interview Preparation Platform | *HTML/CSS, Gemini API, Speech Recognition, NLP* | 🐙 [GitHub](#)

Jan. 2026

- Developed an AI-powered interview preparation platform that generates mock technical interviews based on uploaded resumes and selected skills.
- Integrated Speech-to-Text and Natural Language Processing to evaluate spoken responses and provide personalized feedback.
- Implemented automated scoring, performance analytics, and AI-generated recommendations to improve interview readiness.

Achievements & Certifications

Open Source Contributor: Successfully contributed to Open Food Facts, INCF, and Kiwix through merged GitHub Pull Requests.

UHack 4.0 National Hackathon: Received Certificate of Merit for the STDAMS project.

Deloitte Australia (Forage): Completed Data Analytics Job Simulation using Excel and Tableau.

Simplilearn & Google: Artificial Intelligence Foundation Certification.

LeetCode: Data Structures and Algorithms problems using C++.
